## Introduction and Demographics

The 2007 Yellow Springs Street Fair, an annual event sponsored by the Yellow Springs Chamber of Commerce, was held this year on October 13<sup>th</sup>. The Yellow Springs Men's Group commissioned Wright State University's Center for Urban and Public Affairs (CUPA) to conduct a survey of street fair attendees to gather perceptions related to the Village and a new marketing logo that will be used to promote the village. The intent was to measure the effectiveness of the Community Information Project (CIP) efforts in creating an identity and projecting an enhanced image for Yellow Springs.

A total of 387 respondents were surveyed during this event by six trained CUPA interviewers. The interviews were primarily conducted between the hours of 12:00 p.m. and 4:00 p.m., and all respondents received a Yellow Springs magnet as an incentive for their participation. The survey instrument consisted of eighteen questions that were both quantitative and qualitative (open-ended) in nature.

### **Demographics**

The first section of the survey asked several demographic questions in order to determine the demographic composition of Yellow Springs Street Fair attendees. The following paragraphs will address the responses to demographic questions.

#### **Area of Residence**

The first questions asked respondents to identify their state and zip code of their home address. When analyzing responses, the majority of respondents (92.7 percent) were from Ohio. Of the 18 respondents who were not from Ohio, 5 were from surrounding states. Almost fourteen percent of respondents (13.9 percent) live in Yellow Springs.

For the purpose of analysis, three crosstabs were run to measure differences between groups of respondents. These recoded include:

- "Yellow Springs respondents" versus "Non-Yellow Springs respondents"
- "Yellow Springs region respondents (those living in Clark, Greene, Miami, Montgomery, and Warren Counties) versus "Respondents living outside the five county region"
- "Ohio respondents" versus "Non-Ohio respondents"

Throughout the report, any statistically significant differences among these subgroups will be noted. If a crosstab is not discussed for a given question, then no statistically significant differences were found.

**Age**

More than half (58.2 percent) of those participating in the survey were 44 or younger. A quarter of all participants (24.5 percent) were 18-24. The table below shows the age distribution of survey respondents.

<b><u>Age Range</u></b>	<b><u>Percentage of Respondents</u></b>
18-24	24.5%
25-34	18.5%
35-44	15.1%
45-54	23.5%
55-64	13.6%
65 or older	4.7%

**Race**

There was not a great deal of diversity amongst those responding to the survey. The majority of respondents (86.1 percent) were Caucasian. Five percent of respondents (5.0 percent) classify themselves as African American, while 9.7 percent of respondents classify themselves as some other race.

**Employment**

Over two thirds (67.7 percent) of all respondents are employed, either full time (59.2 percent) or part time (8.5 percent). Over seventeen percent of respondents (17.3 percent) are students at local universities, with the majority attending Wright State University (15 students), Antioch College (8 students) and Sinclair Community College (5 students). (A list of all universities that were represented can be found in Appendix B). More than four percent of respondents (4.1 percent) are currently unemployed.

## Yellow Springs Street Fair Comments

### Yellow Springs Logo

A primary goal of the survey was to gather the views of Street Fair attendees on the Yellow Springs logo that had been developed. Each respondent was presented with a full page, color copy of the logo and were asked three questions- 1) what word or phrase comes to mind when they see the logo, 2) how does the image make them feel (in a word) and 3) whether they like the image, don't like it, or are neutral.

First, respondents were asked to share what word or phrase came to mind after looking at the logo. Many respondents indicated that the logo brought to mind words such as "old" (20 respondents), "friendly" (19 respondents), "community" (19 respondents), "happy" (18 respondents), "colorful" (17 respondents) and "homey" (17 respondents). Nearly all responses described the logo in a positive way. A complete list of all responses can be found in Appendix B.

Next, respondents were asked to indicate how the logo made them feel. Responses to this question were varied and diverse, although there were several common responses. These common responses included "happy" (79 respondents), "good" (42 respondents), "comfortable" (14 respondents), "welcomed" (11 respondents), "warm" (11 respondents) and "homey" (11 respondents). Again, a complete list of other responses can be found in Appendix B.

Finally, respondents were asked to indicate if they like the logo, dislike the logo, or were neutral. More than four in five respondents (82.0 percent) stated that they liked the image on the logo. Less than five percent of respondents (4.3 percent) do not like the image, while 13.7 percent of respondents were neutral.

When looking specifically at responses from Yellow Springs residents (those with the zip code of 45387), slightly less than three-quarters of respondents (72.5 percent) from Yellow Springs indicated that they liked the image. Nearly twenty percent (19.6 percent) of those living in Yellow Springs remained neutral regarding the image, while 7.9 percent of Yellow Springs residents did not like the image. Crosstabs of respondents from the five county region versus out of area respondents revealed no significant differences.

It should be noted that the vast majority of Yellow Springs residents indicated that they like the logo and the quaint image it created; however, there were some respondents who felt that the logo didn't accurately reflect their perceptions of Yellow Springs. One respondent stated "It's not a logo I would pick but it's still cute"; while another stated that the logo is "not funky enough for Yellow Springs". A complete list of all open-ended comments can be found in Appendix B.

### **Yellow Springs Street Fair**

Next, respondents were asked a series of questions about the Yellow Springs Street Fair, including how they learned of the event as well as their perceptions of the event.

First, respondents were asked how they heard about the street fair. The most common response indicated by survey participants was word of mouth (58.6 percent). The next most common response was “Other”, which included responses such as “I’ve been here before” (27 respondents) and “I live here” (26 respondents). Another 10.4 percent of respondents had seen advertisements for the event, while 6.2 percent saw signage for the event within the village and 2.5 percent of respondents learned about the event through electronic means.

A crosstab was run to examine the differences between Ohio respondents and non-Ohio respondents, as well as Yellow Springs area respondents and non-Yellow Springs respondents. Respondents living outside the state of Ohio (85.2 percent) were much more likely to have heard about the street fair from word of mouth than were Ohio residents (56.6 percent). Ohio respondents were more likely to see signage (6.4 percent) or advertising (11.3 percent), whereas, no respondents from outside of Ohio learned of the event via these methods.

Similar to the comparison of Ohio and non-Ohio residents, respondents living outside of the five county Yellow Springs region (69.0 percent) were more likely to indicate that they learned of the event via word of mouth than respondents living within the Yellow Springs area (53.6 percent).

Next, respondents were asked to rate their level of satisfaction with their overall experience during their visit to Yellow Springs. Nearly all (98.7 percent) respondents indicated that they were very satisfied (63.8 percent) or satisfied (34.9 percent) with their experience in Yellow Springs. All respondents (100 percent) that reside in Yellow Springs indicated they were either very satisfied or satisfied with their experience. No significant differences were noted between Ohio and non-Ohio respondents, or Yellow Springs area residents and non-Yellow Springs area residents.

Analysis of open-ended comments reveals that the three of the five respondents who indicated that they were unsatisfied or very unsatisfied with their visit to Yellow Springs may have actually checked the wrong box, as open-ended comments were very positive about the event and their visit to Yellow Springs. Therefore, the percentage of Yellow Springs Street Fair respondents who were satisfied with their visit to the village may be higher than 98.7 percent.

When asked why they are satisfied with their visit to Yellow Springs, common themes included having fun with activities, nice people, good food, atmosphere, and that it was a

beautiful day. The only negative comment that was mentioned by multiple respondents was the price of food.

Next, respondents were asked to indicate if their visit to Yellow Springs: exceeded their expectations, fulfilled their expectations, fulfilled many, but not all of their expectations, fell somewhat short of their expectations or fell greatly short of their expectations.

Over one-quarter of respondents (26.7 percent) indicated that their trip to Yellow Springs exceeded their expectations, while the majority of respondents (66.9 percent) stated that the visit fulfilled their expectations. Crosstabs between Yellow Springs residents and those from outside the village revealed no statistically significant differences.

Thirteen percent of all respondents indicated that their visit to Yellow Springs required an overnight stay. With this in mind, all respondents were asked to indicate if they would spend the night in either Yellow Springs or Dayton Area accommodations if the fair were turned into a two day event. While less than thirty percent of respondents indicated that they would require overnight accommodations, those who were interested were more likely to indicate that they would stay in Yellow Springs accommodations (28.4 percent) than Dayton Area accommodations (19.3 percent). As would be expected, crosstabs by zip code of respondents revealed that out of state respondents were more likely than local respondents to indicate that they would be likely to require overnight accommodations in the future.

### **Perceptions of Yellow Springs**

Respondents were also asked a series of questions pertaining to their general views of Yellow Springs, including the frequency of their visits to Yellow Springs and their satisfaction with several attributes of the Village.

First, respondents were asked how often they attend events or attractions in Yellow Springs. One quarter of respondents (23.6 percent) indicated that they attend events in Yellow Springs all the time, while another 28.2 percent attend events frequently. Another quarter of respondents (26.4 percent) attend events somewhat frequently, while 17.1 percent rarely attend Yellow Springs events and 4.7 percent never attend Yellow Springs events. Nearly all Yellow Springs respondents (98.1 percent) always or frequently attend events or attractions in the city. As would be expected, respondents living in the five county area were more likely than residents from outside the region to attend events all the time or frequently.

Almost all of the respondents (98.9 percent) reported that they would return to events in Yellow Springs in the future. No differences were noted between residents from within the region and those outside the region as it pertains to whether respondents would return to Yellow Springs for future events.

## Analysis of Responses: Yellow Springs Street Fair

Respondents who indicated that they would likely return for events in the future were asked what activities they would engage in when returning to Yellow Springs. Common themes among responses show that many respondents plan to shop, eat, hike and return for the street fair in their future visits to Yellow Springs. A complete list of all responses can be found in Appendix B.

Respondents were also asked what other activities they have participated in while in town for the Street Fair. More than three quarters of respondents (78.4 percent) have shopped at stores in Yellow Springs, while 61.6 percent of respondents have dined at Yellow Springs restaurants and 44.9 percent have visited other Yellow Springs businesses. Other activities that respondents indicated doing while in town for the fair include hiking and visiting vendor booths.

<b>Activities While Attending the Fair</b>	
Shopped at stores in Yellow Springs	78.4%
Eaten at Yellow Springs restaurants	61.6%
Frequented any Yellow Springs businesses	44.9%
Other	12.5%

Next, all respondents were asked whether they believe the Village of Yellow Springs has too many, enough, or not enough shops restaurants and businesses (such as banks, bookstores, etc.).

More than four in five respondents (82.8 percent) indicated that Yellow Springs has enough shops, while 61.1 percent indicated that Yellow Springs has enough restaurants and 72.6 percent believe that the village has enough businesses. Yellow Springs residents were less likely than the sample as a whole to indicate that the village has enough of each of these entities, as referenced by the table below. Similarly, respondents from the Yellow Springs region (57.6 percent) were significantly less likely than respondents from outside the region (68.6 percent) to indicate that there are enough restaurants.

<b>Yellow Springs Has Enough of the Following</b>		
	All Respondents	Yellow Springs Respondents
Shops	82.8%	78.4%
Restaurants	61.1%	43.4%
Businesses	72.6%	66.0%

Finally, respondents were presented with a series of attributes pertaining to Yellow Springs, and were asked to indicate if they are very satisfied, satisfied, unsatisfied, or very unsatisfied with each attribute.

Overall, the majority of respondents are very satisfied or satisfied with every aspect of Yellow Springs. Residents of Yellow Springs reported greater levels of satisfaction with each attribute when compared to non-Yellow Springs residents. The area of lowest satisfaction for both groups is parking in Yellow Springs- 62.9 percent of all respondents and 84.0 percent of Yellow Springs residents indicated that they are satisfied with parking in the village. An analysis of all attributes that were discussed is presented in the table below.

	All Respondents	Yellow Springs Respondents
Street appearance	90.2%	96.0%
Downtown appeal	90.5%	94.0%
Adequate number of events	86.4%	92.0%
Ability to get around downtown	83.1%	90.2%
Parking	62.9%	84.0%
Shops and customer service	89.9%	90.0%

### **Conclusion**

Overall, most respondents were happy with the Yellow Springs logo that was presented for comment, with many indicating that the logo captures their views of the village. Similarly, almost all visitors to the Yellow Springs Street Fair were satisfied with their visit. In fact, nearly all participants indicated that the street fair met or exceeded their expectations. Yellow Springs businesses are benefiting from the street fair, with over sixty percent of respondents patronizing Yellow Springs restaurants and shops during their visit. Word of mouth seems to be the best advertising tool for the Yellow Springs Street Fair, with more than half of respondents indicating that they heard of the fair in this manner. In conclusion, survey results showed a positive view of both the Street Fair and the village as a whole.

***4. Please indicate whether you like these images: (Additional Comments)***

- Antioch
- Attractive, partings happy and friendly image
- Been here before, DDN "Go" Section
- Captures small town, the church, the shops, I like the green and the L for yellow is trees
- Colors are very inviting, I like it very well through out
- Cute logo, I think it says little town
- Depends on setting
- Do like it
- Don't like it, its boring- show more spirit
- Ehh, I'm not big fan. There should be peace sign
- Fits the city very well
- From outsider perspective
- Good image
- Great image
- Happy
- Hate it
- Helps offset the 1960's- 1970's image of Yellow Springs as overly academic, "kooky", "dirty" and "dangerous"
- I like how it's written

- I like it (13)
- I like it and enjoy the colors, word design and various symbols
- I like it! Honest, its good
- I like it, it is very artistic
- I like it, very comforting
- I like the different shades of green
- I like the image but don't know if it fits the towns image
- I like the logo but don't really have strong feelings about it.
- I like the URL
- I liked it the first time I saw it. I think it captures the town very well
- I love it
- I really like the colors it represents the colors of the Village and Woods
- I really like the idea, however is hard to see through the image, it bleeds a bit to much
- I think it is a good logo for Yellow Springs
- I think it is a great logo for Yellow Springs. Appropriate for the small eclectic community.
- I think it represents the town very well
- I think it's an image that captures the spirit of the village
- I think that it looks like Yellow Springs
- I think the logo is pretty grand
- I'm for it
- It is nice, homey and colorful
- It looks great
- It looks like there is a lot going on and happy
- It needs to be a bit more diverse
- It promotes the feelings of a serene community
- It puts the feelings I have about Springs into words
- It's a little busy, but I like it
- It's colorful and homey
- Its colorful quaint, pretty and I like it a lot
- Its cool I guess
- It's nice
- It's nice, but there is always room for improvement
- It's not a logo I would pick but it's still cute
- It's okay but doesn't quite capture the quirkiness of the town, a little conventional
- It's pretty
- It's very green, and it's about saving the environment
- Like it ok, but there is something about it that I don't like and can't put my finger on it
- Like it, but depends on cost
- Like it, but the art style is a bit out dated perhaps, like the natural themes though
- Like the image (2)
- Live close
- Local, past
- Looks good, gives sense of fresh environment

- Lots tranquil
- Love the image
- Memory
- Natural, didn't make me want to look twice
- Nice (2)
- Nice cheerful
- Nice, light not too busy and fun
- No comment
- Not funky enough for Yellow Springs
- Not really reflective of Yellow Springs
- Not very distinct
- Perfect fit for this town
- Quaint, cute, home cooked feelings
- Really like it and cycling path on logo
- Reminds me of retro version of European village
- Seems a little "country field" fun, artsy town
- Should have use local artist
- Show more fall colors
- The colors don't represent the town to me
- The eclectic side of Yellow Springs doesn't seem to be reflected in the logo. I love Yellow Springs for it's positive uniqueness
- The image is lack luster. It looks cheap, straight out of clip art
- This is the greatest
- To busy, keep trees, no church, round off on the right side
- Too much green (too many different shades). Yellow Springs should be a different color, blends in too much
- Too old fashioned
- Very cozy feeling
- Very earthy, would like to see more red and blue
- Very fitting
- Very generic, need to shop unique building in Yellow Springs
- Very nice
- Wife attends school here
- With colors and designs, it represent everything very well
- Yes, noticed the sign as I drove into Yellow Springs and thought it was lovely and exciting wanted to take a photo be it

- I came early this year and it is nice with less people
- I come down about every two weeks
- I come here often, I like Yellow Springs
- I come to both every one and enjoy it.
- I don't like dogs
- I get paid to be here
- I get to drink beer here

- I have been here before, so I know that it is fun. There is always stuff to look at and listen to
- I have had a good time
- I know more people by first name here than Miamisburg where I live
- I like all the food, items for sale and people
- I like being able to walk to different places and living close to Glenn
- I like the creativity and the diversity of people and places
- I like the relaxed variety
- I like the small town atmosphere people are very friendly
- I like the town and people
- I like Yellow springs
- I live here (2)
- I live here and choose to live here can stay on weekends
- I live here and love the town
- I love coming here but the crowd is hard to take sometimes
- I love it and live here. It's community and I know people

- Love Yellow Springs
- Margarita's and Martinis, we need a sandwich
- Maybe more Port-O-Johns next time
- Meet a lot of people, nice to visit
- Much to see, good variety of food etc.
- Music wasn't as good as the spring
- Neat atmosphere
- Neat people
- Need better accessibility for people with disabilities. There are so many people here and it is difficult for a person using a wheelchair to maneuver
- Needs to be more handicapped parking
- New merchants- a little crowded but that is great for the Yellow Springs economy
- New, Exciting
- Nice booths, nice people, good atmosphere
- Nice but crowded

- Nice community
- Nice crowd, weather
- Nice day
- Nice day, crowded
- Nice day, everything, music, food, unique things for sale
- Nice day, nice entertainment, many things to see
- Nice entertainment, food, I know some vendors
- Nice fair but needs more diversity of vendors-- too many South American and Tie dye vendors. Also you advertise no Pets but no one seems to police and turn individuals with dogs away
- Nice folks (2)
- Nice place to come/town
- Nice place to visit
- Nice town
- Nice variety of things to do and many types of people here
- Nice, but a little crowded. But I guess that is good
